Muhammad Asad Raza

Software QA Engineer @ Tkxel | Manual & Automation Testing |
Cypress & Playwright | GIKI'22 | PEC Certified | TCF Alumnus
Karāchi, Sindh, Pakistan

Summary

I'm a passionate individual who believes in using my expertise and positive energy to benefit society.

Currently, I'm a Software Quality Assurance Engineer at Tkxel, where I excel in my role due to my attention to detail, willingness to learn, and ability to work well within a team.

I completed my bachelor's degree from Ghulam Ishaq Khan Institute of Engineering Sciences and Technology, where I developed a strong foundation in my field and gained valuable experience through internships and projects.

As a TCF Alumnus, I'm committed to contributing my skills to create a better future for all. I take constructive criticism well and see challenges as learning experiences.

I'm excited about the future of my career and always eager to connect with like-minded professionals who share my passion for making a difference.

Experience

Tkxel

3 years 10 months

Software Quality Assurance Engineer
October 2023 - Present (2 years 8 months)
Lahore, Punjab, Pakistan

- Led the creation and execution of detailed test plans and test cases to validate system functionality and user requirements.
- Attended weekly client meetings with the US-based team (Complete Discovery Source) and maintained daily communication via Jira to ensure clear alignment on testing priorities, progress, and issue resolutions.

- Conducted regression, smoke, and integration testing across web and mobile platforms to ensure seamless feature updates.
- Collaborated with the development team to perform root cause analysis on critical defects and prevent recurrence.
- Enhanced the efficiency of QA processes by identifying gaps and recommending process improvements to ensure thorough coverage.
- Delivered detailed test execution reports to stakeholders, highlighting key findings, defect trends, and recommendations for improvements.

Associate Software Quality Assurance Engineer

August 2022 - October 2023 (1 year 3 months)

Lahore, Punjab, Pakistan

- Executed manual testing for web and mobile applications, ensuring end-to-end coverage of all test scenarios.
- Collaborated with developers and project managers to clarify requirements and ensure complete understanding of user stories.
- Logged and tracked defects in JIRA, verifying fixes and retesting as part of defect lifecycle management.
- Prepared and maintained test reports, providing stakeholders with regular updates on testing progress and defect status.
- Participated in sprint planning and retrospectives, contributing to continuous improvement of QA processes.

K-Electric
